DETAILED ACTION

1. Claims 1-27 are pending. Claims 1, 5, 14, and 16-27 have been amended in this communication filed 9/25/06 entered as Response After Non-Final Action, New or Additional Drawings, and Extension of Time.
2. The newly submitted drawings filed 09/25/06 have been reviewed and entered.
3. The claim objections for claims 1, 5, and 16 have been overcome by Applicants' amendment and is hereby withdrawn.
4. The objections to the Specification have been overcome by Applicants' amended specification.
5. The Title Objection has been overcome by Applicants' amendment to the Title and is hereby withdrawn.
6. Claims 1, 14, and 16-27 rejected under 35 USC 112 Second paragraph have been amended and overcome the rejection and the rejection is hereby withdrawn. However, there still remain some 35 USC 112 second paragraph rejections in the claims as set forth here below.

Claim Rejections - 35 USC § 112

7. Claims 1, 14, and 16 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: After limitation one there is a gap between the claim limitations. Another limitation is needed after "the at least one pharmacy client is configured to accept and process orders for medications", "the service center client system" and the "pharmacy network configured with a global

Art Unit: 3694

database ...". Suggestions: a pharmacy client system to accept and process orders for medications and the pharmacy network including in the global database the plurality of formulary records; ..., ... (another limitation is needed here) with the limitation including the "at least one of the orders for medication is processed upon request "by the pharmacy network" or "by the pharmacy server" or by the at least one pharmacy client system". Any of these "by" can be inserted after "request" in the claim limitation.

Claims 14 and 16 have similar problems with there being a disconnect between claim limitations.

Claims 2-13, 15, and 17-27 are also rejected because of their dependency from a rejected base claim.

Suggestion: add claim limitations to the independent claims including "changes to amounts of caloric content, amounts and preferences of electrolytes, the medication specific label for an intravenous solution, etc. The claim limitations from claims 8, 9, 11-13, 17-20, and 22-27. This should add claim limitations to all of the independent claims to assist in placing the application in condition for allowance.

However, an extensive updated search will be performed and if there is no prior art found to reject the claim and there are not any remaining claim issues, the application will be passed to issue.
